Subject: RE: Grumman meeting in July

What do you guys think about checking in with MWD and BWD and see whether they are feeling the same way.

Just thinking that if we went out with a recommendation to defer the meeting until September maybe we would want to provide a very brief update on things e.g. a couple of quick bullets on the following:

- OU3 well installation
- White paper
- Next steps for CSIA sampling—(will Pace or DEC respond to comments)—do we want to have a call to discuss comments and whether there is any benefit to additional work.

We should probably also offer up dates for a September meeting (knowing that we will need to check in with DOH on their availability at some future date); I'll check Catherine's calendar.

Have a good weekend.

Doug – I spoke with Bob. Discussions relative to disposal options of treated water have not progressed to the point that holding a meeting on July 26 would be a good use of everyone's time. We recommend that it be postponed. Jim H
